

Find dental care

How to search and find dental care

Where's my dentist? And how do I know what network or tier level, if applicable, my dentist belongs to? No worries. Finding your dental care provider is just a few clicks away.

Step 1

To get started, visit **healthpartners.com** and log in to your *myHealthPartners* account. Once you log in, you'll automatically only see dentists in your network. So, there's no need to search a network. Easy, right? If you haven't set up your account, click on **Sign up** at the bottom of the form and follow the steps.

Step 2

Once you're signed in, you'll see your personalized page. Click on **Find care** at the top to start searching.

Step 3

Within **Find care**, start your search by clinic or dentist and then narrow your search results.
